

BULL RING....

Note: The best time to ring a bull is when it is about 7 - 10 months old, using a small ring. Change to a medium about 18 months, then to a large at 30 months. Bronze Wagner Pierceasy rings are supplied with a slotted and an Allen brass screw plus an Allen key, to give the user a choice of screw type to use. Bull rings should not be reused.

Copper Farmhand

- small 64 x 8mm **207 968 \$11.95**
- med 70 x 8mm **207 969 \$11.95**
- large 76 x 8mm **207 970 \$11.95**

Shoof own-brand self-piercing copper bull rings. Long lasting, totally proven in use. Thumbscrew-type locking pin, broken off when tight, reveals cross-slot for screw driver. Dimensions are o.d. in mm.

Brass Farmhand

- small 64 x 8mm **219 400 \$11.95**
- med 70 x 8mm **219 401 \$11.95**
- large 76 x 8mm **219 402 \$11.95**

Shoof own-brand self-piercing brass bull rings. Thumb-screw type locking pin, broken off when tight, revealing screw-driver slot. Dimensions are o.d. in mm.

NB: Brass rings are harder wearing than copper rings.

Stainless Farmhand

- small 64 x 8mm **207 693 \$11.95**
- med 70 x 8mm **207 694 \$11.95**
- large 76 x 8mm **207 695 \$11.95**

Shoof own-brand self-piercing stainless steel bull rings. Longer lasting than copper especially on hard ground. Proven in use. Thumbscrew-type locking pin, broken off when tight, reveals cross-slot for screw driver. Dimensions are o.d. in mm.

Bronze "Pierceasy"

- small 66 x 8mm **200 933 \$33.95**
- dairy 77 x 8mm **200 930 \$34.95**
- med 77 x 10mm **200 932 \$38.95**
- large 88 x 11mm **200 931 \$44.95**

Our bronze Pierceasy bull rings come from Wagner USA, where they have been brand leader for many years. Patented Pierceasy system is what it says - safe and easy without applicator tools. Dimensions are o.d. in mm.

Bull Ring Applicator Economy

200 928 \$39.95

Makes ring application quick and easy. This applicator will do rings up to 77mm x 10mm (maximum outside diameters), with or without perimeter locating pin hole. Length 28 cm o.a. This applicator is suitable for all our Hayes and Farmhand bull rings.

PRICE REDUCED

Bull Ring Applicator Quality

200 929 \$229.00 \$79.95

This applicator is suitable for our medium size Farmhand bull rings. Quick and easy piercing, closing, and lock-pin insertion, all with ring locked in the applicator. High quality European-manufactured nickel plated tool, 32 cm o.a. length.

Bull Nose Punch

- standard **200 927 \$49.95**
- quality **200 926 \$129.00**

Use to pierce the bull's nose cartilage prior to insertion of nose ring, making the job more animal friendly, and reducing stress and risk of accidents. We recommend use of the quality version which is of superior manufacture and function. Length: Standard 25cm. Quality 27cm.

Bull Nose Punch Premium

200 925 \$269.00

Preferred method for hassle-free insertion of bull rings is to punch the nose membrane first. The Premium punch is a quality tool, made in Australia, used for generations. It features hardened and tempered punch-and-die jaws, to cut a 10mm hole. Length 27cm o.a.

Mouth Gag Drinkwater

set **204 657 \$39.95**

Special gag set for use with cattle, to safely secure mouth open. Designed to fit snugly over the molars. Sold as a set, left plus right.

BULL HOLDER....

Pliers Rope-type

213 829 \$39.95

The old favourite bull holder you don't need a degree to work. Supplied with 1.5m of good quality poly-rope. Length 20cm. Stainless steel.

Pliers Chain-type

200 916 \$34.95

This model features a chain closure, and locking hook, for quick and easy action in all conditions. Chain is 40cm long, with large end-link for attachment of rope (not supplied). Pliers are stainless steel, length 20cm.

Spring Close

200 922 \$24.95

Our most popular style of bull holder, being easiest to attach and remove, as well as a compact style. Very reliable. Length 11cm. Width 7cm.

PRICE REDUCED

Spring Close Stone

200 923 \$42.95 \$39.95

Made in USA by Stone Mfg Co., this is a good quality easy-to-use bull holder (or show lead as it is called in the US). Corrosion-resistant die-cast zinc. We think this one is worth the small extra cost. Dimensions are 12cm long x 8cm wide o.a.

Salt Block Saver Little Giant

28cm x 28cm 219 083 \$29.95

Australian 20kg salt and mineral lick-blocks are generally about 24cm x 24cm, so these will fit nicely in our blockholders from Little Giant, USA. The floor of the Block Saver is above ground level, and has holes for drainage, thus increasing block life. This is a durable product, made for cattle use.
