

PIG RING...

Nickel Plated

10-pk **208 998** ~~\$22.95~~
Self-locking pig ring. Expected life 2-3 years. This is our standard quality pig ring. Size 41mm x 6mm o.d.

High Tensile

each **205 037** ~~\$17.95~~ **\$15.95**
High quality pig ring for greater reliability, reduced infections and longer life. Made by Aesculap in Germany from corrosion inhibited high-tensile steel, with polished finish. Size 37mm x 6mm o.d.

Applicator

economy **205 035** **\$32.95**
Make pig ringing quick, easy and painless. Designed for inserting our nickel plated and high tensile rings. (Rings go between nostrils.) Kamer, 26cm o.a. length.

PRICE REDUCED

Pig Nose Clips Steel (Box of 100)

No.3 - 25 x 2.4mm **205 032** ~~\$11.95~~ **\$10.95**
No.4 - 32 x 2.1mm **205 033** ~~\$12.95~~ **\$11.95**
No.5 - 34 x 2.6mm **205 034** ~~\$13.95~~ **\$12.95**
applicator 16cm **205 029** ~~\$22.95~~ **\$19.95**

Low-cost, quick and effective way to control pigs digging. Use several around the top of the nose. These clips are made of corrosion-resistant steel wire (not plated). Dimensions are overall width before closing x thickness of wire. Boxes of 100 clips, all sizes.

PRICE REDUCED

Pig Nose Clips Copper

100-pack **208 997** ~~\$35.95~~ **\$32.95**
These 38mm x 2.5mm-thick copper-plated nose clips are the ideal way to control pigs digging their way next door. Genuine UK-manufactured long-life clips. Use up to six around the top of the nose. Box of 100.

Pig Nose Clips Applicator Universal

19cm **205 030** **\$36.95**
For applying all wire nose clips, usually to the top of the nose. Use this tool designed for the job, and get it done quickly, cleanly and painlessly. One tool fits all our sizes of wire clips. Length 19cm o.a.

PRICE REDUCED

Scratching Brush Pigs/Calves

43cm x 43cm **219 320** ~~\$299.00~~ **\$249.00**
repl't brush **219 321** ~~\$49.95~~ **\$39.95**

This brush was developed in Scandinavia for keeping pigs happy in groups. It may help to relieve boredom, and random biting and fighting, but it certainly helps combat itching and insects. Mount securely at the right height, depending on size of pigs. They should be able to massage their head, back and flanks. The brushes are replaceable. Very robust. Galvanised spring and frame. Brushes are each 43cm x 10cm. Also very useful for calves for the same reasons as pigs.

ON SPECIAL

Creep Bowl Stainless Steel

201 648 ~~\$55.95~~ **\$39.95**

Here is a real quality creep bowl, all stainless steel. Push and turn bottom clip for any slotted flooring. Easy to empty and clean and will last forever. Can be used for feed or drink. Diameter 25cm o.a. x 4cm deep.

No Bite Spray Kerbl

400ml **219 166** **\$22.95**

Spray on noses and tails of piglets to reduce biting and fighting.

No Fight Spray Kerbl

400ml **219 167** **\$22.95**

This spray can be used to stop fighting and biting in pigs and poultry. It covers the animals' individual odours, reducing their incentive to challenge each other. It is best sprayed onto pen walls, and into the air, twice a day until animals are settled.

New

Castration Cradle Piglet

cradle only **220 485** **\$235.00**
mounting bracket only **220 697** **\$95.00**

This device has been developed to take the strain and pain out of piglet castration. Ideally for use on piglets 2-9 days old. When supplied complete with the removable mounting bracket, it is simply clamped onto the stall wall with the spring-loaded arms. The piglet is loaded in on its back, head first. The legs clamp is then swung forward to restrain the hind legs, leaving the testicles cleanly exposed. This makes castration a simple one-person job. Device can also be used for tail docking and vaccinations. All stainless steel. The cradle on its own can suit alternative mounting systems.

New

Tail Docker Piglet Gas

complete **206 359** **\$169.00**
repl't op. cylinder **206 360** **\$89.95**
repl't blade assy **206 358** **\$39.95**

The Tail Docker is powered by ordinary lighter gas. It cauterises as it cuts off the tail, preventing bleeding and inherent risk of spread of disease. Quick, simple, painless and safe. Should do 120 tails per fill. A customer reports: "Gas tail docker is marvellous. Now I can do tails, teeth, and iron injection all in one round. No abscesses or bleeding - great." All Stainless steel manufacture.

"The secret to my longevity? Well, my boy, it's really quite simple ... I owe it all to unclean living!"
